ELECTION FOR MAYOR.—The first election of this officer, by the people, is likely to be conducted with much spirit. The friends of Mr. Darragh will perceive, by a notice in our paper to day, that they are invited to attend a meeting at the house of Mr. Badgley, this evening.

CANALS AND RAIL ROADS.—If any doubts should remain of the propriety of the decision in favor of the Mahoning rout, we think those doubts must be removed by the following passage, in the late report of the Canal Commissioners.

"Because the construction of a *good* rail road, with double tracks, will cost *twice* as much as a good canal Because heavy articles, such as iron, coal, and agricultural productions, can be carried for *half the sum* (toll included) on a canal, that their conveyance will cost on a rail road."

MR. CRAIG.—Having learnt that at a meeting of the citizens of the East Ward, I was nominated for the Select Council—to prevent disappointment, I wish to inform them, that altho' thankful for their favorable opinion, my expected absence from the city, would, in case of my election, render the discharge of the duties of the office impracticable. BENJ. BAKEWELL.

CONGRESS.

January 6.—In the Senate, Alexander Porter, Senator elect from Louisiana, appeared to day and took his seat.

The oath was then administered to Mr. Porter.

A message from the President of the United States was received, enclosing a communication from the American Consul at Tangier, stating that he had accepted from the Emperor of Morocco a present of a Lion, &c. which was referred to the Committee on Foreign Relations.

Mr. Webster, from the Committee on Finance, reported the bill from the House making appropriations in part, for the support of Government for the year 1834, with sundry amendments.

On motion of Mr. Webster, the Senate proceeded to consider the amendments. The amendments were then agreed to, as in Committee of the Whole, and were reported, and concurred in, and the bill was ordered to a third reading.

The Vice President laid before the Senate a communication from the Secretary of State, inclosing the commissions of Mr. Duane and Mr. Taney, required by a call of the Senate; which were ordered to be laid on the table and printed.

In the House of Representatives, Mr. Selden presented the memorial of the Board of Trade of the city of N. York, setting forth the deranged state of the currency, and calling upon Congress to apply the necessary remedy.

Mr. Binney presented a similar memorial from the Board of Trade of Philadelphia.

ALABAMA AND THE EXECUTIVE OF THE UNITED STATES.

Mr. Lewis, of Alabama, asked leave of the House to offer a resolution. To this leave unanimous consent being necessary, and it being objected to,

Mr. Lewis moved to suspend the rule which requires the unanimous consent of the House; stating that the object of the resolution was to prevent collision and conflict between the Government of the United States and the State of Alabama, on the subject of certain Indian treaties.

The rule was thereupon suspended—yeas 115, nays 16.

Mr. Lewis then offered the following:

Resolved, That the Committee on Indian Affairs be instructed to inquire whether the provisions of the treaty of March, 1832, with the Creek tribe of Indians, in the State of Alabama, be inconsistent with the sovereign right of jurisdiction of said State within its limits; and whether the execution of said treaty has so far conflicted, or is likely to conflict, with the operations of the laws of said State over the country ceded by such treaty; and, if so, to inquire whether some act of legislation, consistent with the right of said Indians, may not be necessary to prevent such conflict, and that said committee have leave to report by bill or otherwise.

Having presented his resolution, Mr. Lewis went at large into an exposition of the reasons by which he conceived it to be supported, a report of which is rendered impracticable at this moment, by the regulation of the mails, and the necessity of closing our paper in time to meet them.

After stating the nature of the dispute between the State and the Government, he said that when he left home all was quiet, and universal congratulations were exchanged on the prospect that the orders of the President, to proceed to a forcible removal of the settlers on Indian lands, would be deferred; but, since his arrival, he had received letters, stating that a large military force had been concentrated at Fort Mitchell, and orders were out for them to act on the 15th of January, inst. Under these circumstances, he had written to the Secretary of War, inquiring into the truth, and had been told, in answer, that the time could not be extended, and the order had not been revoked.—Under these circumstances, he could no longer abstain from invoking the interposition of Congress to devise some measure which should prevent the necessity of a resort to force, and obviate the otherwise impending collision of the two Governments.

In the course of his remarks, Mr. L. was very severe on the Executive, whom he charged with inconsistency in his conduct towards Georgia and Alabama, in cases precisely similar to each other; and of remissness in his duty, in not having apprised Congress in his message of the difficulty.

Mr. Stewart, not conceiving that there was any present necessity of going into the discussion of the subject, moved to lay the resolutation on the table, but withdrew his motion at the request of

Mr. Lewis, who urged the necessity of speedy action by the House.

One of the first political economists of the day, in a letter to the Editor, says, that a fall of one per cent per lb. on cotton, sweeps THREE MILLIONS of dollars from the pockets of the southern planters. The market opened at sixteen, and has fallen to ten, with an increasing demand in Europe. If we suppose that one half of this depression has been produced by the conspiracy against the bank, it will be seen that the loss has been NINE MILLIONS of dollars to the south, on this single article of cotton!

The price of flour fell one dollar per barrel, in Baltimore, in one day; and nobody pretends to deny that it was owing to this cause alone. We are not now prepared to estimate the loss to the *farmers* on this article; but we will at an early day

October 8, 1833.

turn our attention to it and give an estimate.—*Wash. Tel.*

A Memorial—of which we subjoin the conclusion—to the legislature of Pennsylvania, has been signed, we learn, by most of the city banks, and is likely to obtain the concurrence of nearly all the state banks throughout the commonwealth.—*Nat. Gaz.*

"Your Memorialists therefore respectfully request, that the Legislature would be pleased to interfere in the manner that in their wisdom they may think most effectual, to procure the restoration of the future public deposits to the Bank of the United States, that thereby the commercial and manufacturing interests of the State, the progress of internal improvements, and the financial arrangements of the commonwealth, may be saved from impending derangement and disorder, perhaps absolute confusion and ruin."

GEN. MCKEAN.—We publish, to day, a letter from the newly elected Senator in Congress from Pennsylvania, which is worth reading, Gen. McKean is no changeling. We should like to see Mr. Van Buren and the General exchange looks when the letter first reaches them in the Senate chamber.—*Balt. Pat.*

Maryland Erect.—Yesterday, General James Thomas, was re-elected Governor of Maryland, by the Legislature, by a majority of one over the combined forces of the Opposition. When we take into consideration the great efforts that have been made to defeat him, the National Republicans have much cause for gratulation. For particulars, we refer to the letters from our obliging correspondents.—*Balt. Patriot, Jan.* 7.

More of Executive Vengeance.—Another experiment is making by the Secretary of the Treasury, to assist certain of the "pet" banks at the expense of the Bank of the United States. This morning an order was received by the branch in this city, from the Treasury Department, forbidding the payment from the pension office connected with the bank of any more pensions under the act of 1832, and directing the transfer of the funds on hand under that act to the Mechanics' Bank.—There is, however, but a beggarly sum to be thus transferred—not one fifteenth part of the amount of the balances against the local banks this day. "*Hail to the Chief!*"—*N. Y. Com. Adv.*

The Election.—The following are all the returns we have been able to obtain:

	Alexander.	*Farrell.*
Greensburgh borough,	120	6
Hempfield township,	290	35
Unity "	30	2
Youngstown district,	149	54
Pleasant Unity,	127	55
Mountpleasant,	87	158
Jacksonville,	99	31
Franklin,	20	152
Salem,	41	83
Ligonier,	202	10
Derry,	44	133
Donegal,	87	11

Major Alexander about 566 ahead so far—7 districts to be heard from, in most of which Mr. Farrell will probably have majorities, but we think he cannot come up to the Major by 3 or 400 votes. The official returns will be given in our next.—*Greensburg Intel.*

We have been asked why the deposit Banks in this city refuse to take the notes of deposit Banks in other States, at their counters; because it seems strange if the Treasury deems such Banks to be safe depositories of the people's money, why their associates should think otherwise. But our deposit Banks say that when their colleagues in other States will place money in this city to meet their notes, then they will take them at their counters, and not till then. Will not other states see in this the determination of the Regency and K. C. to make every thing tributary to the city of New York? In proof of this the notes of Western and Southern Deposit Banks are selling at a discount of *five per cent!*

The Albany Argus begins to squint rather kindly towards Mr. Webster, in the hope that he has cut loose from that old federalist Henry Clay, and is determined never again to say that the Bank paid Mr. Webster's traveling expenses to the West. Blair and Kendall have written to Crosswell to be cautious in putting forth his hand to Webster, further than he can draw it back, for they have reason to suspect that he will report against the right of the President to seize upon the Treasury without the color of law—and that is a dismal prospect for the K. C. to feast upon.

It is a singular fact, and will hereafter be generally admitted, that President Jackson is the victim of a band of needy adventurers and desperate political gamblers, who are plunging him and the country in ruin.—*N. Y. Eeveing Star.*

The Cabinet.—The Secretary of the Treasury, says Mr. Clay, ought to have stated that the Cabidet was divided two and two, and one of the members, equally divided with himself on the question, willing to be put into either scale. He ought to have given a full account of this, the most important act of Executive authority since the origin of the Government; he should have stated with what unsullied honor his predecessor [Mr. Duane] retired from office, and on what degrading conditions he accepted his vacant place.

When a momentous proceeding like this, varying the constitutional distribution of the powers of the Legislative and Executive departments, was resolved on, the ministers, against whose advice it was determined, should have resigned their stations.

No Ministers of any Monarch in Europe, under similar circumstances, would have retained the seals of office.

And if, as no body doubts, there is a cabal behind the curtain, without character and without responsibility, feeding the passions, stimulating the prejudices, and moulding the actions of the incumbent of the Presidential office, it was an additional reason for their resignations.

There is not a Maitre d'Hotel in Christendom, who, if the scullions were put into command in the parlor and dining room, would not scorn to hold his place, and fling it up, in disgust, with indignant pride!—*Phila. Daily Adv.*

A steam vessel, on a new construction, was launched lately at Barnstable. She is built without timbers, and consists merely of courses of thin planking crossing each other diagonally and fastened through the whole. The dimensions are 86 feet in length, and 12 in breadth. The object is light draught of water, and this has so far been realized that the vessel floated, when with six tons of ballast on board, at only 15 inches. She will be towed round to Hayle, Cornwall, to be fitted with engines. It is calculated that her draught, with engines of 50 horse power, and materials on board complete for sea, will not exceed two feet. The paddles are so arranged as to obviate the evils of concussion and swell. Her destination is between Hayle and Goole. A smaller vessel, of similar build, is intended for navigating the Aire and Calder canal, between Goole and Leeds, and will form a link of communication between the above boat and a line of coaches to Sheffield, Wakefield, Huddersfield, etc. Passengers will thereby be enabled to reach Manchester from Hull in twelve hours.—*Devan Advertiser.*

CITY ACCOUNTS.

THE JOINT COMMITTEE, elected by the Select and Common Conncils of Pittsburgh, to settle the Accounts of the City Officers—report: That they have carefully examined the Treasurer's Accounts, which they have compared with the warrrants from the Mayor, and have examined the Mayor's Warrant Book, with his vouchers—also, the Collector's Account with the Treasurer: all of which they find correct, as stated in the abstracts annexed—No. 1, Treasurer's Account, showing a balance in the Treasury, of $734 57 cents. No. 2, Debts and Credits of the city. No. 3, Reports from City Officers—all of which is respectfully submitted.

AN ORDINANCE

To divide the City into Wards or Districts, and for other purposes.

WHEREAS, by an Act of the General Assembly of this Commonwealth, passed the 26th day of December, 1833, the Select and Common Councils of the City of Pittsburgh are required to meet on the first Tuesday in January, and divide said city into four wards or districts, and fix the places for holding all General and City Elections, for the said wards, at such houses within the bounds of the respective wards, and not elsewhere.

SECTION 1. *Be it ordained and enacted, by the Select and Common Councils of the City of Pittsburgh,* That from and after the passage of this Ordinance, the City of Pittsburgh shall be divided into four wards, in the manner following, viz:—So much of the said city as lies northwardly of the middle of Liberty street, and eastwardly of the middle of Marbury street, shall be one ward, to be called the North Ward. So much of the said city as is included in the following boundaries, viz: Beginning at the middle of Liberty and Marbury streets, and running thence down Marbury street to the Allegheny river, thence along the Allegheny river to its confluence with the Monongahela river, thence up the Monongahela river to the middle of Wood street, thence up the middle of Wood street to Diamond alley, thence up the middle of Diamond alley to Market street, thence up the middle of Market street to the middle of Liberty street, and thence down the middle of Liberty street to the place of beginning, shall be one ward, to be called the West Ward. And so much of said city as is included in the following boundaries, viz: Beginning at the foot of Wood street, on the Monongahela river, thence up the middle of Wood street to the middle of Diamond alley, thence along the middle of Diamond alley to the middle of Smithfield street, thence down the middle of Smithfield street to the middle of Fourth street, thence along the middle of Fourth street, and up the Farmers' and Mechanics' Turnpike Road to the City Line, and thence by the same to the Monongahela river, thence down the same to the place of beginning, shall be one ward, to be called the South Ward; and so much of said city as lies east of the middle of Liberty Street, Diamond Alley and the boundaries of the South Ward, above named, shall be one ward, and be called the East Ward.

SECT. 2. *And be it further ordained and enacted,* That from and after the passage of this ordinance, the places for holding all general and city elections for the respective wards or districts, as described by the first section of this ordinance shall be as follows:—For the *West Ward* at the Court House, in the Diamond—For the *South Ward* at the house now occupied by William Alexander, at the corner of Smithfield and Third Streets—For the *East Ward* at the House now occupied by John Dully, at the corner of Wood and Fifth Streets—and for the *North Ward* at the House now occupied by Thomas Wynne, at the corner of Liberty and St. Clair Streets.

SECT. 3. *And be it further ordained and enacted,* That when each Election to be had and held, in pursuance of the aforesaid recited act of Assembly, for Mayor shall be closed and the number of votes for each candidate or person voted for shall be counted and ascertained, the persons authorized to hold and conduct such elections, or a majority of them, shall within twenty four hours thereafter, meet at the Court House in the Diamond, and shall then and there prepare and make, under their hands and seals the return thereof, containing the names of each candidate or person voted for Mayor, with the number of votes for each, and shall appoint one of their number whose duty it shall be to deliver a true copy of said return to the president of the Select Council, previous to the first meeting of the Select and Common Councils in joint assembly to choose city officers, and shall file the original returns in the office of the Clerk of the City Court, and the Select and Common Councils shall, in their joint meeting, proceed to examine such Election Returns, and to hear all remonstrances and objections to the same, and determine thereon, and to declare the person qualified, having the greatest number of votes, to be legally elected, and in cases where the election has been illegally or unfairly conducted or the number of illegal votes given may render the result doubtful, the councils shall have power to set the same aside and order a new election, giving notice thereof, as in the case of other special elections.

SECT. 4. *Be it further ordained and enacted,* That so much of any ordinance as is hereby altered and supplied, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, the 7th day of January, A. D., 1834.

JOHN GRAHAM,
President Common Council.

All those who wish to save labor in washing, will please to call and see the operation, at the Masinon House, corner of Wood and Fifth streets. Machines, and the right of counties for sale—Machines 12 dollars—and at any persons service for trial. Dec. 31, 1833.

We have had in use Appleton's Patent Washing Machine, and do not hesitate to say that it is preferable to any that we have seen or used. A woman can wash as much in one day, with the machine, as she could in three by the hand, and only half the soap is necessary. We think it clears the clothes better than hand washing, without injury to them. We have also used Barnes' Patent Steam Washing Machine, called Peg Machine, but give Appleton's the preference. It washes cleaner and faster; therefore we recommend Appleton's Machine to the public in general.

Lucy Higginbotham, | Elizabeth McKim.
Robert Poore,

We have in use Appleton's Patent Washing Machine. It is so simple in its construction that it may be used by any unskilful hand, and we do recommend it as a great saving of time and labor.

Hamilton County Agricultural Society.

It is hereby certified, that the Judges, appointed by the Hamilton County Agricultural Society, for the exhibition, held at Mill Creek, on the second of October, 1833, having awarded that Appleton's Washing Machine, submitted to the Society, on trial, appeared to their satisfaction to be of utility as a labor saving machine in domestic economy—they unhesitatingly recommend it to their fellow citizens—in testimony whereof, this Certificate is given. FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved Balance, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

DOCTOR ROBERT'S
☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness. Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.
Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving t emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
